\*) = aantal koeien met maximaal 150 dagen tussen laatste proefmelking en afmelding

\*\*) = dagen tussen eerste kalfdatum en datum laatste monstername

\*\*\*) = dagen tussen geboorte en laatste afvoerdatum

(som van dagen opfok, productieve levensduur en dagen na laatste proefmelking)

**Tabel 2. productieve levensduur van stamboekkoeien per jaar van afvoer**

Periode 1 september 2019 - 31 augustus 2020

| jaar afvoer | aantal keren gekalfd | gem. TKT   | melk dagen per TKT | dagen droog per TKT | melk dagen laatste lactatie | melk dagen totaal | kg melk per melkdag |
|-------------|----------------------|------------|--------------------|---------------------|-----------------------------|-------------------|---------------------|
